Rayonier Announces Ten Percent Dividend Increase

JACKSONVILLE, Fla., July 23, 2012 - Rayonier (NYSE:RYN) announced today that its board of directors voted to increase the company's regular quarterly cash dividend by \$.04 per common share, or 10 percent, from \$.40 per share to \$.44, effective for the third quarter distribution.

The third quarter dividend is payable Sept. 28, 2012, to shareholders of record on Sept. 14, 2012. This is the company's eighth dividend increase in the last ten years.

"Providing a secure and growing dividend to Rayonier shareholders remains a key strategic objective," said Paul G. Boynton, Chairman, President and CEO. "This increase reflects our strong financial position and the continuing confidence we have in our businesses' ability to generate increasing cash flows."

Rayonier's dividend is expected to be characterized as long-term capital gain and taxed at a maximum rate of 15 percent for most U.S. taxpayers.

Rayonier will announce second quarter earnings on July 26. The company will host a conference call and live webcast with the investment community at 2 p.m. EDT the same day to discuss the results. Investors may listen to the conference call by dialing 888-790-3052, passcode: Rayonier, or by logging onto <http://www.rayonier.com>.

About Rayonier

Rayonier is a leading international forest products company with three core businesses: Forest Resources, Real Estate and Performance Fibers. The company owns, leases or manages 2.7 million acres of timber and land in the United States and New Zealand. The company's holdings include approximately 200,000 acres with residential and commercial development potential along the Interstate 95 corridor between Savannah, Ga., and Daytona Beach, Fla. Its Performance Fibers business is one of the world's leading producers of high-value specialty cellulose fibers, which are used in products such as filters, pharmaceuticals and LCD screens. Approximately 45 percent of the company's sales are outside the U.S. to customers in approximately 40 countries. Rayonier is structured as a real estate investment trust. More information is available at www.rayonier.com.

Certain statements in this document regarding anticipated financial outcomes including earnings guidance, if any, business and market conditions, outlook and other similar statements relating to Rayonier's future financial and operational performance, are "forward-looking statements" made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. These forward-looking statements are identified by the use of words such as "may," "will," "should," "expect," "estimate," "believe," "anticipate" and other similar language. Forward-looking statements are not guarantees of future performance and undue reliance should not be placed on these statements.

The following important factors, among others, could cause actual results to differ materially from those expressed in forward-looking statements that may have been made in this document: the effect of the current economic downturn, which is impacting many areas of our economy, including the housing market, availability and cost of credit, and demand for our products and real estate; the cyclical and competitive nature of the industries in which we operate; fluctuations in demand for, or supply of, our forest products and real estate offerings; entry of new competitors into our markets; changes in global economic conditions and world events, including political changes in particular regions or countries; the uncertainties of potential impacts of climate-related initiatives; changes in energy and raw material prices, particularly for our Performance Fibers and wood products businesses; impacts of the rising cost of fuel, including the cost and availability of transportation for our products, both domestically and internationally, and the cost and availability of third party logging and trucking services; unanticipated equipment maintenance and repair requirements at our manufacturing facilities; the geographic concentration of a significant portion of our timberland; our ability to identify, finance and complete timberland acquisitions; changes in environmental laws and regulations, including laws regarding air emissions and water discharges, remediation of contaminated sites, timber harvesting, delineation of wetlands, and endangered species, that may restrict or adversely impact our ability to conduct our business, or increase the cost of doing so; adverse weather conditions, natural disasters and other catastrophic events such as hurricanes, wind storms and wildfires, which can adversely affect our timberlands and the production, distribution and availability of our products and raw materials such as wood, energy and chemicals; interest rate and currency movements; our capacity to incur additional debt, and any decision we may make to do so; changes in tariffs, taxes or treaties relating to the import and export of our products or those of our competitors; the ability to complete like-kind exchanges of property; changes in key management and personnel; our ability to continue to qualify as a REIT and to fund distributions using cash generated through our taxable REIT subsidiaries and changes in tax laws that could reduce the benefits associated with REIT status.

In addition, specifically with respect to our Real Estate business, the following important factors, among others, could cause actual results to differ materially from those expressed in forward-looking statements that may have been made in this document: the cyclical nature of the real estate business generally, including fluctuations in demand for both entitled and unentitled property; the current downturn in the housing market; the lengthy, uncertain and costly process associated with the ownership, entitlement and development of real estate, especially in Florida, which also may be affected by changes in law, policy and political factors beyond our control; the potential for legal challenges to entitlements and permits in connection with our properties; unexpected delays in the entry into or closing of real estate transactions; the existence of competing developers and communities in the markets in which we own property; the pace of development and the rate and timing of absorption of existing entitled property in the markets in which we own property; changes in the demographics affecting projected population growth and migration to the Southeastern U.S.; changes in environmental laws and regulations, including laws regarding water withdrawal and management and delineation of wetlands, that may restrict or adversely impact our ability to sell or develop properties; the cost of the development of property generally, including the cost of property taxes, labor and construction materials; the timing of construction and availability of public infrastructure; and the availability of financing for real estate development and mortgage loans.

Additional factors are described in the company's most recent Form 10-K and 10-Q reports on file with the Securities and Exchange Commission. Rayonier assumes no obligation to update these statements except as is required by law.
